MAKING YOUR WORLD A SAFER PLACE

New! Enhanced CPT210 End Kits

Announcing the new, enhanced CPT210 sensing edge ends for even greater performance and versatility.

The CPT210 assemble-in-the-field sensing edge boasts a small profile and an innovative adhesive-free end design, making it easy to configure, assemble, and adjust on-site.

With versatile monitoring configurations including 8.2K, 10K, diode capacitor, and non-terminated, the cutting-edge conductive polymer technology of CPT210 is ideal for a wide range of applications.

Applications

- Automated gates
- Counter shutters & grilles
- And more!

Features

- Small profile; ideal for narrow surfaces and pinch points
- Enhanced adhesive-free end design
- Easy on-site configuration, assembly, and adjustments
- Versatile configurations: 8.2K Ω , 10K Ω , diode capacitor, and non-terminated
- Convenient kit and bulk options
- Proudly made in the USA!

Other Product Updates

The CPT204 assemble-in-the-field sensing edge has been discontinued.

For those who have relied on CPT204, CPT210 is an ideal alternative. With its small profile and enhanced end design, CPT210 ensures a seamless transition for your safety requirements.

Discover the ease and convenience CPT210 provides. Offering advanced features, along with numerous configuration, kit, and bulk options, the CPT210 is designed to meet your safety needs.

Should you have any product questions or require assistance, please feel free to reach out to our dedicated customer support team.
