

MAKING YOUR WORLD A SAFER PLACE

Introducing the New Non-Monitored Light Curtain!

Miller Edge is pleased to announce its next product launch; Relay Light Curtain (RLC). The RLC is a non-monitored, fail-safe light curtain that can function as an additional device for added protection on any installation. Just like our Monitored Light Curtain, the RLC features multiple thru-beam photo eyes that provide vertical protection for protruding parts that aren't otherwise detected by a single-beam photo eye.

Click below for the updated price list addendum and literature. Literature for the RLC is also available on our website. For any questions regarding the RLC, or to receive updated price pages and literature, feel free to contact your Miller Edge Sales Representative.
